

13400pack lithium battery

13400 3.7v 550mah 2.035wh li polymer battery Lithium-polymer (Li-Polymer) batteries find applications in a wide range of electronic devices due to their flexibility, lightweight design, and high energy density. Lithium Polymer 13400 Battery Feature highlights: This Lithium Polymer Li Ion 13400 Battery offers a 3.7V nominal voltage and 550mAh capacity, designed for deep cycle rechargeable use in toys, vape pens, and indicator 13400 550mah lipo battery Newhop Battery Co.,Ltd has enjoyed rapid growth by working closely with our customers to develop comprehensive battery and energy storage products. Newhop serves a world-wide spectrum of industry High Capacity Lithium Ion Battery Pack These high capacity lithium ion battery packs are super concentrated and are available in four different sizes - up to an impressive 13400mAh! 13400 3.7v 550mah Lithium Polymer LiPo Rechargeable Project Length of soldered leads is short and will vary. There may be signs of tape residue or padding on battery. Low internal resistance. Waste battery can be recycled. Flexible design 13400 Battery 550Mah The 13400 battery 550mah is a lithium-ion (Li-ion) battery designed to meet the energy demands of various applications. Its compact size and high energy density make it a preferred choice for 13400 Lithium Ion Battery 13400 Lithium Ion Rechargeable Battery offers 3.7V, 550mAh capacity, ideal for home appliances, electric tools, and more. Enjoy long-lasting performance. | Alibaba Ternary lithium polymer 13400 3.7V 550mAh stylus electronic Lithium battery protection: short circuit protection, overcharge protection, over discharge protection, over current protection, etc. Application areas: electronic cigarettes (electronic Huahui 13400 3.7V 280mAh Rechargeable Lithium Best Rechargeable Lithium-ion Battery, 13400 Battery Lithium ion Battery 3.7V Battery Supplied by HuaHui New Energy Co.,Ltd ,66,700 square meters factory | 150,000,000Ah per month | ISO, CE, RoHS, & UL standards.13400 3.7v 550mah 2.035wh li polymer battery Lithium-polymer (Li-Polymer) batteries find applications in a wide range of electronic devices due to their flexibility, lightweight design, and high energy density.
