

48V to 13.8V inverter

DC-DC Buck Converter, 48V to 13.8V/36V This series of DC-DC buck converters with synchronous rectification technology is designed to step down the input rated voltage 48V DC to 13.8V or 36V DC output voltage, and different models for your applications. Voltage Converter Regulator 48V to DC 13.8V 30A 414W Power This versatile voltage converter is built to handle demanding power requirements, converting DC 48V to DC 13.8V with a 30A 414W capacity. High Efficiency 48V to 13.8V DC to DC Buck Converter 690W High Efficiency 48V to 13.8V DC to DC Buck Converter 690W Voltage Regulator Inverter with 50A Output Current 50/60 Hz Frequency 48V DC to 13.8V DC (1A-60A) Step-Down DC Converter 48V to 13.8V (30A-60A) If you can not find what you are looking for, please contact us anytime. We'll customize it for you. High Capacity 48V to 13.8V 50A dc converter dc-dc step down On-time Dispatch Guarantee Refund Policy Product Details Quick Details Product name: DC DC Converter Input voltage: 48VDC (30--60VDC) Output voltage: 13.8VDC Current: 50A 48v Step-Down Converter 13.8V DC-DC Automobile Power About this item 48v Step-down Converter 13.8V DC-DC Automobile Power Supply Voltage Inverter 36v to 13.8v 138W 207W 276W 48V to 13.8V DC DC Converter 36V to 13.8V Regulator Voltage 1 Product Summary: 48V to 13.8V DC DC Converter 36V to 13.8V Regulator Voltage 1-100A Module Waterproof Solar Inverter (50A Aluminum P M) From SLMLSGB DC-DC Buck Converter, 48V to 13.8V/36V This series of DC-DC buck converters with synchronous rectification technology is designed to step down the input rated voltage 48V DC to 13.8V or 36V DC output voltage, and different 36V 48V to 13.8V 40A 552W DC DC Step Down Converter Voltage 36V 48V to 13.8V 40A 552W DC DC Step Down Converter Voltage Regulator SKU: B40--13R8 Sold out \$33.00 48v Step-Down Converter 13.8V DC-DC Automobile Power About this item 48v Step-down Converter 13.8V DC-DC Automobile Power Supply Voltage Inverter 36v to 13.8v 138W 207W 276W DC to DC Buck Converter, 48V to 13.8V/36V | Power HomeThe DC to DC buck converter offers selectable 13.8V or 36V output with currents from 5A to 60A, achieving up to 97% efficiency at 48V input. Cybertruck 48V to 13.8V DC Step-Down Converter (40A) Converts 48V vehicle power to 13.8V to fully unleash the performance of auxiliary LED lights and other 12V accessories Ideal for Cybertruck and other EVs with 48V power systems 48V to 13.8V DC DC Converter 36V to 13.8V Regulator Voltage 1 Product Summary: 48V to 13.8V DC DC Converter 36V to 13.8V Regulator Voltage 1-100A Module Waterproof Solar Inverter (50A Aluminum P M) From SLMLSGB Cybertruck 48V to 13.8V DC Step-Down Converter (40A) Converts 48V vehicle power to 13.8V to fully unleash the performance of auxiliary LED lights and other 12V accessories Ideal for Cybertruck and other EVs with 48V power systems
