receives new equipment for Angolan solar work. In May, MCA announced that around 44,000 solar panels had been put into operation at the Luena Solar Park in Angola to bring clean energy to more than 55,000 people.

What is the 'new' keyword in JavaScript? The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What ABAP 7.4 way of filling one itab from another? There is new syntax in every ABAP version. Field symbols have no specific replacement in 7.4, and not later (NB data references have been a possible alternative for a Refresh powerBI data with additional column I have built a powerBI dashboard with data source from Datalake Gen2. I am trying to add new column into my original data source. How to refresh from PowerBI side without Create a branch in Git from another branch If you want create a new branch from any of the existing branches in Git, just follow the options. First change/check out into the branch from where you want to create a new branch. How do I create a folder in a GitHub repository? 1 To add a new directory all you have to do is create a new folder in your local repository. Create a new folder, and add a file in it. Now go to your terminal and add it like you add the normal How to set PowerShell 7 as default and remove other versions I want to set PowerShell 7 as the default shell. So when I shift right click in File Explorer and click on 'Open PowerShell window here' in the context menu, I want url I was searching on this link before finding this answer. I did not find the solution in the link because I was looking for 'newline' or 'new line', instead of 'line feed'. Create Local SQL Server database 6 After installation you need to connect to Server Name : localhost to start using the local instance of SQL Server. Once you are connected to the local instance, right click on git To add a new remote, use the git remote add command on the terminal, in the directory your repository is stored at. The git remote set-url command changes an existing remote repository How do I change the URI (URL) for a remote Git repository? The new remote path should be added on the repository now. If you need to edit an already added remote path, just click the 'Edit' button. You should be directed to the 'Remote details';
