

Afghanistan develops solar panel manufacturers

Yes, there is indeed a company in Afghanistan's Herat province producing 300 solar panels per day, each capable of providing up to 650 watts of electricity. Factory officials claim that the solar panels they produce compete with regional companies in terms of quality. Developing a local solar manufacturing industry isn't just an economic game-changer; it's a crucial step towards energy independence and a greener tomorrow. But, as with any grand vision, the million-dollar question is: can the existing foundations actually support this dream?
