Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more. Can a power station be used as a ups? To use these power stations as a UPS, plug them into the wall, then plug whatever devices you want backed up into the station's AC output ports. When the power is on, those devices use energy from the grid. When there is a power outage, the power station instantly switches these devices to battery power. Which portable power station should I buy? If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side.
