

## Belize's largest solar energy storage project

Belize unveiled a USD-58.4-million (EUR 56.5m) project to deploy 40 MW of energy storage capacities across four sites with support from the World Bank and the Government of Canada. Belize Partners with IFC to Develop Solar Energy Project Mar 18, &#x2013;The project will establish a utility-scale solar plant, providing 50 to 80 megawatts of power by , improving energy security and affordability for around 20,000 households. Belize to structure first energy sector PPP with IFC to Mar 27, &#x2013;The project also includes a 40 MW battery energy storage system, financed by the World Bank, to support renewable energy integration. This initiative represents Belize's first IFC to Advise Belize on Solar PPP Project to Boost Energy Mar 17, &#x2013;IFC, a member of the World Bank Group, is supporting the Government of Belize in attracting a private investor to build a utility-scale solar plant aimed at improving the Belize Advances Solar Power Plans with Major Utility Project Oct 11, &#x2013;The deal paves the way for the construction of a 15-megawatt (MW) utility-scale solar plant with a 1.5MW battery energy storage system in the northern Corozal District. Belize Solar PV Project Mar 13, &#x2013;relatively low cost. To address this, the Government of Belize (&quot;GoB&quot;, "the Government") is promoting private sector participation in large-scale renewable energy Belize Launches New Energy Project to Enhance Power Feb 4, &#x2013;The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking IFC backs Belize's first PPP PV project to enhance energy Mar 18, &#x2013;Belize's solar PPP, led by IFC, aims to improve energy security and lower electricity costs for 20,000 households.
