

## Bulgaria Home Battery BMS Program

Bulgaria's Ministry of Energy has launched a public consultation on a new round of its subsidy program for battery energy storage projects, aimed at facilitating the integration of renewable energy sources. The plan is to support the deployment of 1.9 GWh of new battery capacity with around EUR 118 million. The Bulgarian Ministry of Energy has launched a public consultation on a new round of its subsidy program for battery energy storage projects, aimed at facilitating the integration of renewable energy sources. The plan aims to support the implementation of a new battery storage capacity of 1.9 GWh. Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE. The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said. Bulgaria to tender stand-alone battery storage with EU grants - more than MWh to be funded by EU's. On 25 July, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender, deciding that more than MWh to be funded by EU's. The Ministry of Energy has launched a public consultation for RESTORE 2, a new subsidy program designed to facilitate the development of 1.9 GWh of standalone battery energy storage systems (BESS). This initiative follows the strong momentum of the first RESTORE procurement round, which far exceeded expectations. Explore Bulgaria's battery energy storage system (BESS) regulations, financial incentives and compliance with EU directives. Learn why Bulgaria is a growing market for energy storage investments. With the increasing penetration of renewable energy in the energy source mix across global markets, the market for energy storage is growing. Bulgaria opens public consultation on subsidies for Bulgaria's Ministry of Energy has launched a public consultation on a new round of its subsidy program for battery energy storage projects, aimed at facilitating the integration of renewable energy sources. Bulgaria launches subsidy program for energy storage. The Bulgarian Ministry of Energy has launched a public consultation on a new round of its subsidy program for battery energy storage projects, aimed at facilitating the integration of renewable energy sources. Bulgaria Is Promoting Standalone Battery Storage. The deadline for submission of standalone battery storage project proposals was December 5, 2023. The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals. Bulgaria to tender stand-alone battery storage with EU grants. On 25 July, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender. Bulgaria Launches 1.9 GWh Battery Energy Storage. Bulgaria opens a 1.9 GWh subsidy program for battery energy storage systems to enhance renewable energy integration and grid flexibility. Battery Energy Storage Systems in Bulgaria. The initiative aims to enhance grid stability, reduce curtailment of renewable energy, and support Bulgaria's transition to a low-carbon energy system. As of early 2023, the programme has received 151 project proposals. Bulgaria grants EUR 587 million to 82 battery storage projects. Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy. Energy Storage in Bulgaria Surges with 9.7 GWh. Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has
