

## Columbia Industrial Park Energy Storage Investment

---

Spearheaded by Alliant Energy and developed by Energy Dome, this project aims to address the limitations of conventional lithium-ion batteries in supporting grid-level, long-term storage needs. Constellation unveils proposals for new gas plant, battery storage Constellation Energy began making its case Tuesday that it should be the go-to company if Maryland expands power generation within its borders. The company said Energy Dome signs US contract with Alliant Madison, Wisconsin - 23 October - Energy Dome, a leader in long-duration energy storage solutions, announces a landmark advancement in its commercial-scale deployment in the US market through a signed supply Alliant Energy Alliant Energy's new battery system, known as the Columbia Energy Storage Project, would be the first-of-its-kind in the United States and represents a significant advancement toward a more sustainable, reliable Columbia Energy Storage Project To Pioneer CO<sub>2</sub>-Based Long The Columbia Energy Storage Project in Wisconsin is set to become the first U.S. initiative to deploy a carbon dioxide (CO<sub>2</sub>) battery system, marking a significant step in the Columbia Energy Storage Project The Columbia Energy Storage Project was selected for a grant to support the construction of a compressed carbon dioxide long-duration energy storage system at the site of the Columbia Energy Center. The proposed 18 Columbia Battery Storage Columbia Battery Storage is an innovative energy storage project located in Ilion, New York, with a planned capacity of 20 megawatts. Operated by EDF Power Solutions North America, the Wisconsin Utility Investors The Columbia Energy Storage Project is the first long-duration energy storage system of its kind to be developed in the United States. The 18-megawatt project is designed to improve grid Alliant plans nation's first compressed CO<sub>2</sub> energy Alliant Energy's new battery system, known as the Columbia Energy Storage Project, would be the first-of-its-kind in the United States and represents a significant advancement toward a more sustainable, reliable Alliant Energy's Columbia Energy Storage Project information liability of existing electric grid infrastructure. The project, part of a multiphase site redevelopment effort, will increase energy reliability and resilience while delivering Constellation unveils proposals for new gas plant, battery storage Constellation Energy began making its case Tuesday that it should be the go-to company if Maryland expands power generation within its borders.
