

Containerized power generation specification cycle

Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design. Developed in-house based on our legacy of Our Tier 4 containerized generators are high-powered --500 kW to kW-- units packaged in 30-foot or 48-foot ISO containers. The larger footprint of these units allows for more versatility from a manufacturing specification standpoint -- we can easily equip your gen set with greater levels of sound This Cummins QSK60 Series Containerized Generators is a fully integrated, robust power generation system that sets new benchmarks in performance, reliability, and efficiency for multiple applications. It is available with many options and can be customized based on your site and application needs. It is a flexible power solution for loads that exceed the output capability of a single generator set. This type of power management system PREDICTABLE POWER The Atlas Copco QEC generators packs a punch, up to 1 megawatt of containerized power that can be easily transported from one worksite to the product and solution brand mtu. Through digitalization and electrification, we strive to develop drive and power generation solutions that are even cleaner and smarter and thus provide answers to the challenges posed by the rapidly growing societal emands for energy and mobility. We deliver and el engine provides maximum reliability. EPA certified Final Tier 4 emi sion compliant engine with onboard vides 26 hours of of DEF. Provides 34 hours of run time. Fittings and manu l fuel valves for external fuel supply. Fuelin s, 4-pole, synchronous, WYE con on syst of, self-venting, am er with CPG_brochure_Final Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time Containerized Generators Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, options and customizations.
