

## Croatia's largest energy storage power station

Who owns a power station in Croatia? All power stations in Croatia are owned and operated by Hrvatska elektroprivreda (HEP), the national power company. As of , HEP operates 26 hydroelectric, 4 thermal and 3 cogenerating power plants with the total installed electrical power of 3.654 MW. What is energy in Croatia? Energy in Croatia describes energy and electricity production, consumption and import in Croatia. As of , Croatia imported about 54.54% of the total energy consumed annually: 78.34% of its oil demand, 74.48% of its gas and 100% of its coal needs. Will EBRD project help Croatia achieve decarbonisation & energy independence? The EBRD said the project will contribute to Croatia's goals of decarbonisation and energy independence by reducing reliance on fossil fuels and improving energy system stability amid rising renewable generation. How much money has the EBRD invested in Croatia? The EBRD has invested more than EUR5bn in 273 projects in Croatia to date, focusing on supporting reforms, leveraging EU membership benefits, and modernising public-sector enterprises. Will the EBRD invest in Croatian pension funds? Croatian pension funds managed by Raiffeisen will match the EBRD's contribution with an equivalent EUR16.8mn investment, while an additional EUR16.5mn grant will come from the EU Modernisation Fund, the bank said. Croatia first grid-scale battery storage and virtual power plant EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone merchant Battery Energy Storage System EBRD invests EUR16.8mn in Croatia's first large-scale battery The European Bank for Reconstruction and Development (EBRD) said on October 22 it will invest EUR16.8mn in Croatia's first large-scale battery energy storage system and virtual power EBRD backs Croatia first large-scale battery storage plant The development will facilitate the installation of up to 60 megawatts of grid-connected battery storage capacity and the implementation of a VPP platform, enabling real EBRD invests into firm developing 60-MW BESS, VPP in Croatia The investment marks the bank's first equity stake in a standalone merchant battery energy storage system (BESS). The project will deliver up to 60 MW of flexible EBRD backs Croatia's green power shift By investing in Croatia's first large-scale battery storage facility, the Bank aims to enhance energy security, flexibility, and sustainability at a crucial stage of the country's Croatia's first large battery storage (66 MW) to launch in Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity should be completed and commissioned in , its investor IE Energy told Montel FER Takes Key Role in Battery Storage Study for Croatia's Over 50% of Croatia's transmission grid has exceeded its design lifespan, and its modernization requires both time and significant investment. At the same time, the energy Croatia backup energy system An energy storage system will soon be installed at the largest solar power plant in Croatia, which has a capacity of 3.5 MW, said Zeljko Tukša, President of the Managing Board of Koncar - Croatia first grid-scale battery storage and virtual power plant EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone merchant Battery Energy Storage System List of power stations in Croatia All power stations in Croatia are owned and operated by Hrvatska elektroprivreda (HEP), the national power company. As of , HEP operates
