

## Cuba Outdoor Power Supply

What type of power outlet does Cuba use? Cuba uses both Type A/B and Type C power outlets. Some hotels will use one type and others another, although plenty use both, sometimes even in the same room! As a result, you'll have to pack the proper adapter to recharge your devices while on the road. Do I need a power adapter in Cuba? If you are visiting Cuba from the United States, you should bring a power adapter because US Type A or B outlets may not be readily available. If your device runs on 110 volts or is dual voltage, and the plug fits in a Cuban power outlet, it will work without a plug adapter in Cuba. What type of power plug is used in Cuba? In Cuba, power plugs and sockets (outlets) of type A, type B, type C and type L are used. The standard voltage is 110 / 220 V at a frequency of 60 Hz. Cuba, a Caribbean island nation, is known for its vibrant culture, stunning beaches, and fascinating history. What plugs and adapters should I bring to Cuba? Here are some tips about plugs and adapters when you travel to Cuba: If you are visiting Cuba from the United States, you should bring a power adapter because US Type A or B outlets may not be readily available. What is a plug adapter for Cuba? Please note that a plug adapter for Cuba (also known as a power adapter) is designed to change the shape of the plug on your device so that it can fit into a plug outlet in Cuba, but it will not change the voltage from 110 volts to another voltage. What kind of power does Cuba use? Cuba uses BOTH a 110 and a 220V supply voltage with a 60Hz frequency. Although most hotels in Cuba use 110V power, some of the newer hotels use 220V. The same is true in casa particulars. So bring your regular phone or laptop charger, hairdryer, or shaver to Cuba and charge them from a hotel or a casa particular wall socket.
