

# Democratic Republic of Congo to develop solar power generation for home

The Democratic Republic of Congo's Ministry of Water Resources and Electricity, together with the National Rural Electrification Agency (ANSER), has launched the Mwindu Fund -- a major financing initiative to support solar home systems, minigrids, and clean cooking solutions across the country. The Mwindu Power will supply solar-powered electricity to households and businesses in three cities in northern DRC, Gemena, Bumba and Isiro, with a current combined population of 700,000. The cities currently have no grid connection, and struggle to access reliable, affordable and clean power. Mwindu Soleos Energy is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar PV power project. The project will be executed under a 25-year power purchase agreement (PPA) with DRC state-owned utility Societe Nationale d'Electricite. The Democratic Republic of Congo's Ministry of Water Resources and Electricity, together with the National Rural Electrification Agency (ANSER), has launched the Mwindu Fund -- a major financing initiative to support solar home systems, minigrids, and clean cooking solutions across the country. The United Nations Development Program (UNDP) has invested nearly \$700,000 to build a 120 kW hybrid solar plant in Mambasa, Democratic Republic of the Congo. The community PV project will supply power to more than 300 users, including six health centers, 224 small businesses, and 89 households. A Soleos Energy, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). The project, valued at \$200 million, is expected to significantly boost the region's renewable energy capacity, providing clean The Democratic Republic of Congo (DR Congo) and U.S. developer Sun Africa signed in late October a memorandum of understanding to implement a program called "Energy for Prosperity," according to Mike Luntadila Koketua, president of MFS Group, which serves as the developer's local partner. Mwindu Power Mwindu Power will develop, build and operate hybrid-solar power generation and distribution infrastructure in the Democratic Republic of Congo. Soleos Energy to Build 200 MW Solar Plant in DR Congo Soleos Energy, a renewable energy development company based in India, is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar DR Congo launches \$500 million Mwindu Fund to The Democratic Republic of Congo's Ministry of Water Resources and Electricity, together with the National Rural Electrification Agency (ANSER), has launched the Mwindu Fund -- a major financing Soleos and Melci to Launch 200-MW Solar Project in DR Congo Soleos Energy and Melci Holdings are set to build a 200-MW solar photovoltaic plant in the Democratic Republic of Congo (DRC), with a groundbreaking ceremony scheduled UN invests \$700,000 in 120 kW hybrid solar plant The United Nations Development Program (UNDP) has invested nearly \$700,000 to build a 120 kW hybrid solar plant in Mambasa, Democratic Republic of the Congo. The community PV project will Soleos Energy and Melci Holdings Announce Soleos Energy, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). DRC solar imports: Impressive 1 GW demand by The Democratic Republic of the Congo
