

## Georgia Power Plant Energy Storage Procurement

Does Georgia Power offer an energy-only PPA? The Energy-Only PPA is available for any eligible Generator, regardless of whether Georgia Power has an identified need for additional energy or capacity in its most-current IRP. The full contract name is "Standard Offer Contract for the Purchase of Non-Firm Energy from a Qualifying Facility." Does Georgia Power own energy storage? Georgia Power first examined energy storage in its IRP, with approval to build, own and operate 80 MW of BESS at the time. Tristan is an Electrical Engineer with experience in consulting and public sector works in plant procurement. He has previously been Managing Editor and Founding Editor of tech and other publications in Australia. Will Georgia Power add more energy storage in 2024? Also notable is that Georgia Power is looking at longer duration energy storage, with 3,000 MW per year of 4-hour energy storage is projected to be added starting in 2024, while 3,000 MW per year of 12-hour energy storage is planned from 2025. Small-scale BESS boost Will a new battery energy storage project be a part of a RFP? At the same time, procurement of energy from new battery energy storage (BESS) projects is also expected to be a part of all-source capacity Request for Proposals or RFPs, building on the company's current plans to add more than 1,500 MW of BESS in the coming years, said Georgia Power. Are state resourcing plans updating battery energy storage systems? State resourcing plans are increasingly updating battery energy storage systems (BESS) plans, especially those tied to solar. US utility Georgia Power has filed its update to its Integrated Resource Plan (IRP) with the first update since showing further acceleration in the utility's adoption of (BESS). How do I submit a proposal to Georgia Power? All proposals and communication must be submitted through the Ascend Analytics Power Procurement platform. Georgia Power will not accept submissions or inquiries by phone, email or mail for the program. Georgia Power is the largest electric subsidiary of Southern Company (NYSE: SO), America's premier energy company. Approved by the Georgia Public Service Commission (PSC) as a part of the company's Integrated Resource Plan (IRP), this RFP provides a competitive solicitation for Georgia Power to procure 500 MW of ESS. The company prefers the procured resources to be online by no later than the end of 2024. Approved by the Georgia Public Service Commission (PSC) as a part of the company's Integrated Resource Plan (IRP), this RFP provides a competitive solicitation for Georgia Power to procure 500 MW of ESS. The company prefers the procured resources to be online by no later than the end of 2024. ATLANTA, Sept. 23, /PRNewswire/ -- Georgia Power has announced the open comment period for its Request for Proposals (RFP) for Energy Storage System (ESS) resources. Approved by the Georgia Public Service Commission (PSC) as a part of the company's Integrated Resource Plan (IRP) Georgia Power is pleased to announce the launch of its Request for Proposals for Energy Storage System (ESS) resources. This capacity-based RFP was approved by the Georgia Public Service Commission as part of Georgia Power's Integrated Resource Plan and is designed to procure resources to 2024. Ascend Analytics is administering the request for proposal (RFP) on behalf of Georgia Power. Georgia Power said it prefers the procured resources to be online by no later than the end of 2024. This builds upon Georgia Power's current plans to add more than 1,500 MW of BESS in the coming years The GPSC has
