

## Germany invests in energy storage projects

What's going on with Germany's new battery storage projects?(Credit: Monika from Pixabay) French firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly EUR160m earmarked for their development. The projects will be developed by Kyon Energy, a subsidiary acquired in . Once operational, the six facilities will have a combined storage capacity of 221MW. Who developed the new battery storage projects in Germany?The projects were developed by TotalEnergies affiliate Kyon Energy. Credit: JeanLucIchard/Shutterstock. TotalEnergies plans to invest EUR160m (\$172.8m) in six new battery storage projects in Germany, totalling 221MW of capacity. The projects have been developed by TotalEnergies affiliate Kyon Energy. How much will totalenergies invest in Germany?PARIS, March 26 - French oil major TotalEnergies said on Wednesday it would invest 160 million euros (\$172.7 million) in six new battery storage projects in Germany to be commissioned next year, adding to its investments in power production and delivery in the country. Will Germany's new battery storage capacity boost its power infrastructure?The added storage capacity will further bolster the reliability of Germany's power infrastructure. (Credit: Monika from Pixabay) French firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly EUR160m earmarked for their development. When will totalenergies start building a battery power plant in Germany?Construction began at the end of , and commissioning is planned for early . The launch of these projects marks a major milestone in TotalEnergies' development of battery energy storage capacity in Germany, where the Company has operations in the production, trading, aggregation and commercialization of clean firm power. Does totalenergies invest in battery storage projects in Germany?TotalEnergies, on the occasion of Patrick Pouyann's participation in the Europe conference in Berlin, and in connection with the company's integrated development in Germany's electricity sector, revealed investment decisions for 6 battery storage projects with 221 MW of new storage capacity and an investment outlay of EUR160mn. TotalEnergies to invest in six German battery French oil major TotalEnergies said on Wednesday it would invest 160 million euros (\$172.7 million) in six new battery storage projects in Germany to be commissioned next year, adding to Germany: TotalEnergies Pursues Growth in The launch of these projects marks a major milestone in TotalEnergies' development of battery energy storage capacity in Germany, where the Company has operations in the production, trading, TotalEnergies invests in six German storage projectsFrench firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly EUR160m earmarked for their development. The projects will be developed by Kyon Energy, a TotalEnergies invests \$172.8m in German battery TotalEnergies plans to invest EUR160m (\$172.8m) in six new battery storage projects in Germany, totalling 221MW of capacity. The projects have been developed by TotalEnergies affiliate Kyon Energy. EUR230 Million Investment! Germany's Largest Energy Storage RWE breaks ground on Germany's largest battery storage project at the former Gundremmingen nuclear power plant in Bavaria, investing EUR230 million to deploy 850,000 TotalEnergies Destines EUR160mn to Launch 6 New Battery "The launch of these projects marks
