

# Irish New Energy Storage Module Company

What is energy storage Ireland? Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland. Delivering the energy storage technologies to enable a secure, carbon free electricity system on the island of Ireland by . What will ESB's new battery plant do for Ireland? ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver more renewable power onto Ireland's electricity system. Where are Ireland's most exciting energy projects being developed? Photograph: Bloomberg One of Ireland's most exciting and important energy projects is quietly being developed at a remote outpost in Donegal, not far from Malin Head. Will Ireland reach 70% renewable electricity by ? Ireland is aiming to reach 70% renewable electricity by and as a Member State of the European Union (EU), submitted a draft National Energy and Climate Plan (NECP) in December last year aimed at bringing it in line with EU greenhouse gas (GHG) emissions targets. ESB itself is targeting net zero emissions from its activities by . The 20 Megawatts (MW) of power that the battery-based energy storage system (BESS) is intended to store and deliver can last up to four hours. Statkraft said: "It would be the first BESS in Ireland to store energy for that length of time." The 20 Megawatts (MW) of power that the battery-based energy storage system (BESS) is intended to store and deliver can last up to four hours. Statkraft said: "It would be the first BESS in Ireland to store energy for that length of time." Eamon Ryan (centre) cuts the ribbon to inaugurate the 75MW/150MWh Poolbeg BESS, flanked by ESB's Jim Dollard (left) and Fluence's SVP and EMEA president Paul McCusker. Images: Fluence via . The Republic of Ireland's environment minister Eamon Ryan was on hand last week as a 75MW/150MWh Pictured (left to right) at the opening of ESB's latest major battery plant at its Aghada site in Co Cork is Sharon Corcoran, Cork County Council, Director of Services - Economic Development, Enterprise & Tourism, James Cafferty, Managing Director, Powercomm Group, Cllr. Ann Marie Ahern (deputising We represent Ireland and Northern Ireland's energy storage industry bringing together exciting new technologies and innovations that will help decarbonise our energy system and support a strong, stable, electricity grid. Energy Storage Ireland is a representative association of public and private The Cushaling Wind Farm in Co. Offaly will house a grid-scale battery energy storage system, according to the renewable energy company Statkraft. in N.
