

## Irish company energy storage battery

ESB has partnered with US energy storage provider Fluence Energy Inc (NASDAQ:FLNC) and Irish company Powercomm Group to build the new fast-acting energy storage system, which will help provide grid stability and support the increase of renewables. We currently have more than 300MW of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies. This is crucial to supporting the "Energy storage like this major battery plant at the ESB's flagship site in Poolbeg will be a core part of Ireland's new renewable energy transition," Eamon Ryan said. Eamon Ryan (centre) cuts the ribbon to inaugurate the 75MW/150MWh Poolbeg BESS, flanked by ESB's Jim Dollard (left) and Fluence's

ESB has opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver more renewable power onto Ireland's electricity system. This battery energy storage system (BESS) project is the latest

If you've ever wondered how Ireland plans to keep the lights on while phasing out fossil fuels, look no further than its booming Irish battery storage companies. With wind turbines dotting the countryside like giant pinwheels and solar farms popping up faster than mushrooms after rain, Ireland

Irish state-owned utility ESB on Friday inaugurated a 150-MW/300-MWh battery energy storage system (BESS) at its Aghada site in County Cork as part of its EUR-300-million (USD 317m) investment in battery projects at sites in Dublin and Cork.
