

## Kosovo factory and solar panel manufacturer

Does Kosovo have solar power? Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southwestern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings. What is the New Kosovo power plant? The New Kosovo power plant is part of the government's plans to reform Kosovo's energy sector. Other plans include closing Kosovo A power station by , rehabilitating Kosovo B power station to meet EU standards, and privatizing the country's electricity distribution system. Plans for New Kosovo also include a lignite coal mine, the Sibovc SW. Does Kosovo have a solar farm? With its own solar panel manufacturing plant and hours of sunshine per year Kosovo has considerable solar potential, but the country has less than 10MW solar and no solar farm auctions have yet been held (in contrast in the cloudier UK a single unsubsidized solar farm is typically 10MW ). Who is Unisolar? Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.
