

Latvian new energy solar energy storage company

Niam and Evecon launched the Latvia-focused platform as joint venturers in June , targeting 84 MWp of solar and 26 MW of battery storage capacity. Construction of the initial group of projects, totalling 39.4 MW, is about to be finalised. Niam Infrastructure and Evecon have formed a partnership for the construction of up to 84 MWp of solar power and 26 MW of energy storage across 11 project sites in Latvia. This collaboration represents a substantial investment in the region's renewable energy sector, highlighting the strong growth Sweden-based real assets investor Niam and Estonian clean energy developer Evecon have launched the second phase of their joint renewables platform in Latvia, kicking off construction of four new solar and energy storage projects totalling 36.3 MW. The expansion brings the platform's total capacity

SUNOTEC, one of Europe's leading renewable energy development and construction companies, has acquired 100% of the share capital in SIA DSE Lazas Solar from Danish greenfield developer Danish Sun Energy ApS to build a new PV solar power plant with a total capacity of 400 MWp (megawatts DC) with a European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. This acquisition will pave the way for the construction of a new photovoltaic (PV) solar power plant with a capacity of 400 megawatts European Energy has revealed that it has sold half of its stake in a Latvian solar-plus-storage project to a Danish pension investor, exemplifying the company's ambition to reinvest in renewable energy production across the European energy sector. Europe has seen the solar sector gaining momentum A 84 MW of solar and 26 MW of energy storage portfolio will be installed in Latvia under the Niam-Evecon partnership. Discover the full project details here. The Collaboration of Niam, Evecon will also introduce 26 MW of energy storage linked to solar installations. (Photo Credit: Niam Niam Infrastructure and Evecon partner up for 110 Niam Infrastructure and Evecon have partnered to build up to 84 MWp of solar power and 26 MW of energy storage across 11 sites in Latvia, marking a significant investment in the country's renewable energy Niam, Evecon begin 36.3-MW phase of Latvian Sweden-based real assets investor Niam and Estonian clean energy developer Evecon have launched the second phase of their joint renewables platform in Latvia, kicking off construction of four new solar Danish Sun Energy sells large-scale co-located SUNOTEC is a leading European solar solutions provider with a c.11% market share in the construction of utility-scale photovoltaic plants and battery storage systems. SUNOTEC acquires 400MWp solar, 600MWh European renewable energy provider SUNOTEC has completed the purchase of SIA DSE Lazas Solar's solar and energy storage project in Latvia from Danish Sun Energy. European Energy sells half of Latvian solar-plus-storage project to European Energy has revealed that it has sold half of its stake in a Latvian solar-plus-storage project to a Danish pension investor, exemplifying the company's ambition to Niam, Evecon launch 110 MW Latvian solar storage initiativeSweden- based Niam Infrastructure and Evecon have joined forces to develop up to 110 MW of renewable energy projects in Latvia, including 84 MW of solar power and 26 MW European Energy divests 50% of Latvian solar-BESS projectEuropean Energy has agreed to sell a 50% stake in its Saldus solar and storage
