

Who regulates telecommunications & postal services in Lesotho? A national regulatory authority for telecommunications, broadcasting and postal services in Lesotho BOD has the ultimate responsibility for stewardship, performance and affairs of the Authority. Lesotho Communications Authority (LCA) is a statutory body, established in June , with the mandate of regulating the communications sector in Lesotho. What will the Communications Act do for Lesotho? The Communications Act will integrate the regulation of the telecommunications, broadcasting, and postal sectors. The Lesotho Communications Authority (LCA) will be restructured, and will be given authority to regulate all three sectors. Adoption of a converged regulatory regime will achieve multiple goals. What is Lesotho Communication Authority? 1. Establishment The Lesotho Communication Authority was established in under the Communications Act of . Its primary mandate is to regulate the communications sector and facilitate the development of communication services in Lesotho. 2. Regulatory Framework What does a radio frequency authority do in Lesotho? 6. Spectrum Management The authority manages the radio frequency spectrum in Lesotho, allocating frequencies to various communication services while minimizing interference and ensuring optimal use of the spectrum. 7. Promoting Access Will Lesotho become a public service broadcaster? Public Service Broadcaster. The Lesotho National Broadcasting Service (LNBS) will be transformed from a state broadcaster into a public service broadcaster. This will entail corporatizing the LNBS and making it accountable to an independent board with the goal of serving the public interest. What is Lesotho's Communications Policy? The Communications Policy is consistent with the Southern African Development Community's Protocol on Transport, Communications, and Meteorology, to which Lesotho is a signatory. In particular, as required by the Protocol, the Government will: In this Policy Statement, the term "communications" telecommunications, broadcasting, and postal services. Microsoft Word The Policy will provide the foundation for the adoption of new legislation, the Communications Act of , which will replace the Lesotho Telecommunications Authority Act No. 5 , as Lesotho Communications Authority (LCA) Awards The Lesotho Communications Authority (LCA) in Maseru, Kingdom of Lesotho, has awarded TCI a contract to supply, install and commission a state-of-the-art spectrum management, monitoring and licensing system Communication in Lesotho Here, Broadcast media include 1 state-owned TV station and 2 state-owned radio stations; most private broadcast media transmitters are connected to government radio signal towers; IESOTHO COMMUNICATIONS AUTHORITY STRATEGIC In order to achieve high coverage rates, more Base Transceiver Stations (BTSs) were constructed in order to expand the network coverage. In the period of /21 to /22, 33 BTSs were Ministry Of Information, Communications Specifically, the project will improve the country's public service delivery through the establishment of a modern core e-Government infrastructure and services among key / Facilitate the deployment of communications infrastructure and the provision of good-quality communication services, at reasonable prices, throughout all areas in Lesotho, giving special Ministry Of Information, Communications, Science, To provide affordable, sustainable, accessible and reliable communications services, be a
