The bank has signed an agreement with Malta Iberia, the regional subsidiary of US TES startup Malta Inc., to support the demonstration of Siemens Energy Ventures, Alfa Laval and existing shareholders help Malta accelerate the global transition to a secure and decarbonized energy future. CAMBRIDGE, Mass.-- (BUSINESS WIRE)--Malta Inc., a leader in long-duration energy storage, today announced that it has closed on a round of financing The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness Miriam Dalli told The Malta Independent. Interconnect Malta had launched the procurement process for the design Alfa Laval is supplying technology and acting as an investor in a revolutionary new energy storage solution which could solve one of the biggest challenges facing renewable energy. The announcement late last year of a \$26 million, Series A funding round for new start-up Malta Inc. garnered plenty Malta plans to deploy its energy storage system on an international scale after receiving funding from Siemens Energy, Alfa Laval, and additional shareholders. Malta has announced the closing of a funding round provided by a group of investors, including Siemens Energy Ventures, Alfa Laval BBVA supports Malta Inc.'s long-duration thermal It will be based on a technology that Malta Inc. claims can enable cost-effective energy storage for applications requiring anything from 8-hour to 200-hour (or about eight-day) durations. The technology Malta Closes Funding to Deploy Its Long-Duration Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon free renewable energy while enhancing energy security.
