

## Malta Intelligent Energy Storage Equipment Company

What is Malta's energy storage system? Q: Malta's solution lies in thermo-electric energy storage. Why is this system so innovative, and what are its main keys? A: It combines well-established thermodynamic principles with modern technological advancements to create a cost-effective, scalable, and efficient energy storage solution. Is Malta the first company to commercialize a thermoelectric energy storage system? Christian Bruch, President and CEO of Siemens Energy, said, "Malta's innovative thermoelectric energy storage system offers a flexible, cost-effective and scalable solution for the storage of energy over long periods of time. With our support, Malta is well positioned to be the first company to commercialize such a solution globally. Who invested in Malta energy? CAMBRIDGE, Mass.-- (BUSINESS WIRE)--Malta Inc., a leader in long-duration energy storage, today announced that it has closed on a round of financing provided by a group of investors including Siemens Energy Ventures and Alfa Laval as well as existing shareholders Breakthrough Energy Ventures, Proman, Chevron Technology Ventures, and Piva Capital. How efficient is Malta's thermal storage system? Malta's system also achieves a power-to-power charge/discharge round-trip efficiency (RTE) of up to 60%, which is about 50% higher than other thermal storage systems without heat pump charging. What is Malta's Energy & Climate Strategy? This project is in alignment with Malta's energy and climate strategies, as it emphasises the integration of energy emanating from renewable sources and the mitigation of energy curtailment, thus enhancing energy security and reducing carbon emissions. How long can a Malta storage unit be charged and discharged? A: A Malta storage unit can be charged and discharged 100% in unlimited cycles without degradation of the storage media. As the main storage medium, Malta has selected a natural thermo-solar salt sourced by solar evaporation (e.g., in the Atacama Desert of Chile). Malta Inc., a renewable energy storage company, incubated at X, Alphabet's Moonshot Factory, is on a mission to bring an advanced renewable energy storage system to market.
