

Maximum specifications for double-glass modules

Double glass module design enables extended lifetime with 12-year product warranty and improved 30-year performance warranty¹. Long-term yield security with Anti LeTID Technology, Anti PID Technology², Hot-Spot Protect. Bifacial Q.ANTUM solar cells with zero gap cell layout make efficient use of light shining on the module rear-side for radically improved LCOE. Q.ANTUM DUO Z combines cutting edge cell separation and innovative wiring with Q.ANTUM Technology for higher yield per surface area, lower BOS costs, higher Our industry-leading module power contributes to a conversion efficiency of 23.2%. Bifacial ratio reaches 80%,30% more module power generation than conventional modules. Two-sided double-glazed modules, symmetrical structural design, low risk of hidden cracks. Higher power output even under low Glass-glass solar modules (bifacial modules) increase energy production by approximately 2% to 5% compared to traditional glass-backsheet modules, thanks to their ability to capture light from both sides. They are particularly suitable for high-reflectivity environments, such as white roofs or comparing with conventional P-type module. N-type solar cell has no LID naturally which can increase power generation. Adpoted SunEvo lastest S-TOPCo 2.0 technology, No polysilicon wrap around, Full electrical isolation, Zero leakage current; Much Safer for roof. Higher power output even under Power Current (Imp/A) 10.24 ciency 10.28 up to 21.29% Values at Standard Test Conditions ELECTRICAL STC (Air PARAMETERS(NMOT) Mass AM 1.5 , Irradiance W/m² , Cell Temperature 25o C). Values at Nominal Module Maximum Operation Power(W)Temprture NOMT (wind speed 1m/s 577.60 , Irradiance 800 This manual contains important safety instructions for the Solar Photovoltaic Modules (hereafter referred to as "Modules") of JA Solar Holdings Co., Ltd. (hereafter referred to as "JA Solar). Installers should follow all safety precautions described in this guide as well as local codes when Q.PEAK DUO XL-G10 SERIES Double glass module design enables extended lifetime with 12-year product warranty and improved 30-year performance warranty¹. Long-term yield security with Anti LeTID Double glass solar module | Maysun SolarWhat is the lifespan of double glass modules? The lifespan of double glass modules is typically 30 years or more, which is longer than the lifespan of most glass-backsheet modules, which is around 20 years. The additional Evo6N N-Type TOPCon Bifacial Double Glass 685-710WAdpoted SunEvo lastest S-TOPCo 2.0 technology, No polysilicon wrap around, Full electrical isolation, Zero leakage current; Much Safer for roof. Higher power output even under low-light Phenex Double Glass 535-550W Caution: For professional use only, the installation and handling of PV modules and cleaning modules require professional skills and should only be performed by qualified professionals, JA SOLAR PV MODULES INSTALLATION MANUAL Modules have been certified for a maximum static load on the back side of Pa (i.e. wind load) and a maximum static load on the front side of either Pa or Pa (i.e. wind and INSTRUCTIONS FOR PREPARATION OF PAPERS By choosing heat strengthened glass panels on both sides, we have been able to use a thickness of 2.5mm and to demonstrate an excellent module resistance to all standard mechanical tests VEGA SERIES Our PV modules are designed with better technology in mind, made from robust product components, under stringent

Maximum specifications for double-glass modules

quality control steps and high-tech manufacturing processes. Single-glass versus double-glass: a deep dive into Double-glass modules, with their performance in the face of salt mist, high temperatures and high humidity, have won the market's favour. However, this trend is not without its risks. Q CELLS Data sheet Q.PEAK DUO XL-G10.d-BFG 475-490 Q.ANTUM DUO Z combines cutting edge cell separation and innovative wiring with Q.ANTUM Technology for higher yield per surface area, lower BOS costs, higher power classes, and an Q.PEAK DUO XL-G10 SERIES Double glass module design enables extended lifetime with 12-year product warranty and improved 30-year performance warranty¹.
