

## New energy storage project in Romania

Energy storage fever has gripped Romania. More In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building independent storage facilities. Battery storage project pipeline in Romania in rapid State-owned Hidroelectrica, the largest electricity producer in Romania, wants to install a battery storage system at Iron Gate 2 (Portile de Fier 2) on the Danube. Nova Power & Gas confirms investment in the Bucharest, July 22, - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. Spotlight on Romania: The 600 MWh battery Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in

EBRD considers loan for 127-MW battery project in RomaniaThe European Bank for Reconstruction and Development (EBRD) is considering lending EUR 50 million (USD 58.1m) to support a battery energy storage system (BESS) Romania: Trina Storage to Deliver 65MWh Battery System for Trina Storage is set to supply a 65MWh battery energy storage system (BESS) for a new project in Romania, marking its first deployment in the country. The initiative, located in

Nova Power & Gas confirms investment in Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in Floresti, Cluj County, will have a Romania, Ministry of Energy, battery energy storage systems, Romania's Ministry of Energy announces &#226;,&#172;150 million funding for standalone battery energy storage systems, aiming to enhance the country's energy infrastructure and One of the Largest Hybrid PV and Storage Projects in Romania"We are thrilled to be involved in an initiative that represents a major step forward for Romania's renewable energy sector, being one of the largest hybrid photovoltaic and By the end of , 5 GW of energy storage is to be built in Romania is another European country planning to significantly expand its investments in energy storage. According to the Minister of Energy, at least 2.5 GW of battery Energy storage fever has gripped Romania. More and more large In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building Battery storage project pipeline in Romania in rapid expansionState-owned Hidroelectrica, the largest electricity producer in Romania, wants to install a battery storage system at Iron Gate 2 (Portile de Fier 2) on the Danube. Nova Power & Gas confirms investment in the largest battery storage Bucharest, July 22, - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. Spotlight on Romania: The 600 MWh battery storage boomLeading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company Nova Power & Gas confirms investment in Romania's largest Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in By the end of , 5 GW of energy
