

Papua New Guinea's first batch of solar base stations for communication

Enabler of Tomorrow: Bougainville's Solar Transformation for UNDP has brought renewable energy to the heart of Bougainville by installing solar panels on the roof of the Innovation Hub in Buka, unlocking new opportunities for the people in Papua New Guinea.

Solar: Powering Rural Discover how Papua New Guinea is embracing solar energy to power rural communities, reduce fossil fuel reliance, and build a sustainable future. Learn about key projects.

Papua New Guinea's first echelon of energy storage batteries The project encompasses the construction of a solar and battery energy storage system (BESS) minigrid to be built on the island of Buka, within the autonomous region of Papua New Guinea. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location.

Hides Gas Signs Deal with GenOffGrid to put up Remote Solar Power Stations The Hides Gas Development Company Ltd (HGDC) recently signed a Memorandum of Understanding (MoU) with GenOffGrid to train and hire tradesmen, engineers, and technical staff in both Papua New Guinea.

Papua New Guinea National Energy Access Transformation Project The Papua New Guinea National Energy Access Transformation Project (NEAT or the 'Project') will be financed by the World Bank and implemented by the National Energy Authority (NEA) and PNG.

SolSol - Rural Solar Power Solution for Papua New-Guinea The SolSol Project is commissioned by ELCPNG, the Evangelical Lutheran Church of Papua New Guinea. The project builds small Solar Power Stations for Health facilities, Schools.

PNG opens tender for solar-plus-storage minigrid A tender has opened for the development of a hybrid solar minigrid system in Papua New Guinea. The project encompasses the construction of a solar and battery energy storage system (BESS).

Solar power stations roll out commences for Nawaeb This initiative, led by the local MP Theo Pelgen, aligns with the National Government's commitment to expanding energy access in remote communities and the broader APEC agenda to illuminate rural Papua New Guinea.
