

## Serbia grid-side energy storage project

Turkish renewable energy producer Fortis Energy has obtained a construction permit for a 270 MW solar project combined with a 72 MWh battery energy storage system in Serbia. The project will be located south of the Sava River near the village of Drenovac, northwestern T&#252;rkiye's Fortis Energy has secured a construction permit for 270 MW of solar alongside 72 MWh of battery energy storage to be built in northwestern Serbia. Construction is scheduled to begin during the second quarter of next year. Turkish renewable energy producer Fortis Energy has obtained a Fortis Energy, a Turkish renewable energy developer, has received a pivotal construction permit for a major solar-plus-storage power project in Serbia. The 270 MW photovoltaic plant, coupled with a 72 MWh battery storage system, marks one of the Balkans' most significant strides toward clean Serbia's transmission system operator Elektromreza Srbije received two grid connection applications for battery energy storage systems. They are the first energy storage projects in the country. Investments in battery energy storage systems (BESS) is ramping up around the world and Serbia is now Fortis Energy is reinforcing its presence in Southeast Europe's renewable energy market with the development of the 110 MWp Erdevik Solar Power Plant, featuring an integrated 31.2 MWh Battery Energy Storage System (BESS) in Sid, Serbia. This hybrid solar and storage project represents a strategic Fortis Energy plans to begin work on the 270MW PV/72MWh BESS project in Q2 . Image: Fortis Energy. Fortis Energy has secured a construction permit for a 270MW PV plant combined with a 72MWh battery energy storage system (BESS) in Serbia. The Turkish renewable energy company said that once Turkish company GridFlex intends to invest EUR 17 million (USD 19.8m) to install a 125-MWh battery energy storage system (BESS) near the city of Leskovac in southern Serbia. Energy storage battery. Photo by Anna Vasileva Plans for the project were discussed at a meeting between Goran Cvetanovic Permit secured for 270 MW solar-plus-storage project in SerbiaT&#252;rkiye's Fortis Energy has secured a construction permit for 270 MW of solar alongside 72 MWh of battery energy storage to be built in northwestern Serbia. Construction is Fortis Energy Secures Key Permit For Large-Scale Solar-Plus Fortis Energy receives construction permit for a 270 MW solar and 72 MWh storage project in Serbia. The site is located near Sremska Mitrovica, south of the Sava River, west of Serbia receives first two grid applications for Serbia's transmission system operator Elektromreza Srbije received two grid connection applications for battery energy storage systems. They are the first energy storage projects in the country. Fortis Energy Launches 110 MWp Solar + Storage Project in SerbiaThis hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil Fortis Energy receives construction permit for Serbia Fortis Energy has secured a construction permit for a 270MW PV plant combined with a 72MWh battery energy storage system in Serbia. GridFlex to install 125-MWh standalone battery in Serbia | Energy Turkish company GridFlex intends to invest EUR 17 million (USD 19.8m) to install a 125-MWh battery energy storage system (BESS) near the city of Leskovac in southern Serbia. Serbia: Fortis Energy to build 110 MW solar power plant with storageTurkish renewable energy company Fortis Energy has announced plans to

## Serbia grid-side energy storage project

construct a 110 MW solar power plant near the town of Sid in northwestern Serbia. The Serbia energy storage options Serbia plans to build solar power plants, wind farms, and pumped-storage hydropower plants, but also gas-fired power plants, energy storage batteries, and hydrogen facilities, in order to Serbia Solar and Storage Project | UGT Renewables Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by Electric Power Industry of GridFlex to build 125-MWh standalone battery project in Serbia Turkish developer GridFlex plans to install a 125-MWh standalone battery energy storage system near Leskovac in southern Serbia, committing about EUR 17 million to one of Permit secured for 270 MW solar-plus-storage project in Serbia

Fortis Energy has secured a construction permit for 270 MW of solar alongside 72 MWh of battery energy storage to be built in northwestern Serbia. Construction is Fortis Energy Secures Key Permit For Large-Scale Solar-Plus-Storage Fortis Energy receives construction permit for a 270 MW solar and 72 MWh storage project in Serbia. The site is located near Sremska Mitrovica, south of the Sava River, west of Serbia receives first two grid applications for battery energy storage Serbia's transmission system operator Elektromreza Srbije received two grid connection applications for battery energy storage systems. They are the first energy storage Serbia Solar and Storage Project | UGT Renewables Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by GridFlex to build 125-MWh standalone battery project in Serbia Turkish developer GridFlex plans to install a 125-MWh standalone battery energy storage system near Leskovac in southern Serbia, committing about EUR 17 million to one of
