

Solar power system supplied to Côte d'Ivoire

Côte d'Ivoire has approved the construction of a \$60 million solar power plant in Katiola, aiming to produce 85,934 megawatt-hours (MWh) annually. This initiative is part of the country's strategy to increase the share of renewables to at least 45% of its energy. The Boundiali solar power plant, which has now been officially inaugurated, contributes to the avoidance of 35,000 tonnes of CO2 emissions and thus to global climate protection. The new power plant supplies 150,000 people with sustainably generated electricity. In the vast landscape of West Africa

Abidjan, Côte d'Ivoire, August 7th, - IFC and the Government of Côte d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Côte d'Ivoire. The plants will bring clean, reliable electricity to more than 35,000 homes. On December 2, , JC Mont-Fort's Ivorian subsidiary, Katiola Solar Power, signed a landmark concession agreement with the Government of Côte d'Ivoire to implement a 50 megawatt peak (MWp) solar photovoltaic project in Katiola, located in the Hambol region. This strategic project is a cornerstone of Côte d'Ivoire's renewable energy strategy. Côte d'Ivoire has approved the construction of a \$60 million solar power plant in Katiola, aiming to produce 85,934 megawatt-hours (MWh) annually. This initiative is part of the country's strategy to increase the share of renewables to at least 45% of its energy mix by 2030. The government decree No. 1277/AN of 2019 states that the Republic of Côte d'Ivoire is planning to build 12 photovoltaic solar plants with a combined capacity of 678 MW in different parts of the country by 2030. Likewise, the government plans to reach 1,686 MW by 2030. The Minister of Mines, Oil, and Energy of the Ivory Coast, Mamadou Sangafowa, stated that Côte d'Ivoire recently celebrated the launch of a significant renewable energy milestone with the inauguration of a new solar power plant in Boundiali, located in the northern part of the country. This development is poised to supply up to 37MW of power, enough to sustain electricity to 35,000 homes. The first solar power plant in Côte d'Ivoire supplies 150,000 people with sustainably generated electricity. The Boundiali solar power plant, which has now been officially inaugurated, contributes to the avoidance of 35,000 tonnes of CO2 emissions and thus to global climate protection. The new power plant supplies 150,000 people with sustainably generated electricity. Winning Bidder Announced to Provide Solar Power IFC and the Government of Côte d'Ivoire today announced Infinity Power Holding as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Côte d'Ivoire. JC Mont-Fort wins 50 MW solar concession in Côte d'Ivoire On December 2, , JC Mont-Fort's Ivorian subsidiary, Katiola Solar Power, signed a landmark concession agreement with the Government of Côte d'Ivoire to implement a 50 megawatt peak solar photovoltaic project in Katiola, Côte d'Ivoire: PPP solar energy project gets the green light Côte d'Ivoire has approved the construction of a \$60 million solar power plant in Katiola, aiming to produce 85,934 megawatt-hours (MWh) annually. This initiative is part of the country's strategy to increase the share of renewables to at least 45% of its energy mix by 2030. Côte d'Ivoire's Solar Plan: 12 New Plants, 678 MW The Republic of Côte d'Ivoire is planning to build 12 photovoltaic solar plants with a combined capacity of 678 MW in different parts of the country by 2030. Likewise, the government plans to reach 1,686 MW by 2030. Boundiali Solar Plant Powers Up, Lights 35,000 New Boundiali solar plant in Côte d'Ivoire inaugurated, providing sustainable electricity to 35,000 homes and marking a significant advance in Africa's renewable energy sector.
