

## The world's first immersion liquid-cooled energy storage

Hanwha Aerospace and SK Enmove unveil a Hanwha Aerospace, in collaboration with SK Enmove, has unveiled the world's first immersion cooling energy storage system (ESS), marking a significant step toward non-flammable battery technology. Hanwha Aerospace and SK Enmove Unveil World's First SEOUL, South Korea, Sept. 11, /PRNewswire/ -- Hanwha Aerospace, in collaboration with SK Enmove, has unveiled the world's first immersion cooling Energy ?World-first?Kortrong Energy Storage joins The immersion energy storage system newly developed by Kortrong has been successfully applied to the world's first immersion liquid cooling energy storage power station, China Southern Power Grid The World's First Submerged Liquid Cooled On March 6th, the world's first submerged liquid cooled energy storage power station - the Meizhou Baohu Energy Storage Power Station of China Southern Power Grid officially put into operation. World's First Immersion Cooling Battery Energy Storage Power The Meizhou Baohu energy storage power plant in Meizhou, South China's Guangdong Province, was put into operation on March 6. It is the world's first immersed liquid The World's First Submerged Liquid-cooled Energy Storage The scale of the energy storage power station is 70 MW/140 MWh, and according to the calculation of 1.75 charging and discharging per day, it can generate nearly 81 million kWh of Hanwha Aerospace and SK Enmove unveil South Korean companies Hanwha Aerospace and SK Enmove have collaborated to produce the world's first immersion cooling energy storage system (ESS), marking a significant step towards non First Immersion-type liquid-cooled energy storage power station Nanfang Grid Meizhou Baohu Storage Power Plant, the world's first submerged liquid-cooled power storage power plant, has officially started operation. Shell brings data-centre cooling tech to batteries in world-first Shell (Shanghai) and Chongqing-based QingAn Energy Storage (QAES) have announced a strategic partnership to introduce immersion-cooling technology - a method long the first liquid-cooled energy storage system connected to the Edina, an on-site power generation solutions provider, today (26th April) announce the launch of its battery energy storage system (BESS) solution integrating liquid-cooling system Hanwha Aerospace and SK Enmove unveil a groundbreaking ESSHanwha Aerospace, in collaboration with SK Enmove, has unveiled the world's first immersion cooling energy storage system (ESS), marking a significant step toward non Hanwha Aerospace and SK Enmove Unveil World's First Immersion Cooling SEOUL, South Korea, Sept. 11, /PRNewswire/ -- Hanwha Aerospace, in collaboration with SK Enmove, has unveiled the world's first immersion cooling Energy ?World-first?Kortrong Energy Storage joins hands with China The immersion energy storage system newly developed by Kortrong has been successfully applied to the world's first immersion liquid cooling energy storage power station, The World's First Submerged Liquid Cooled Energy StorageOn March 6th, the world's first submerged liquid cooled energy storage power station - the Meizhou Baohu Energy Storage Power Station of China Southern Power Grid officially put into Hanwha Aerospace and SK Enmove unveil immersion cooling energy storage South Korean companies Hanwha Aerospace and SK Enmove have collaborated to produce the world's first immersion cooling energy storage system (ESS), marking a the first liquid-cooled
