

Ukrainian new energy storage battery brand

AMSTERDAM, Sept. 11, (GLOBE NEWSWIRE) -- Fluence Energy B.V., a subsidiary of Fluence Energy, Inc. (NASDAQ: FLNC) ("Fluence"), a global market leader delivering intelligent energy storage systems, services, and asset optimization software, has energised Ukraine's largest battery-based energy storage facility. Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said. DTEK partnered with American energy firm Fluence Energy Inc. -- Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ranging from 20 MW to 50 MW and connected to the power grid in the Kyiv and Dnipropetrovsk regions. Fluence and DTEK complete Ukraine's largest battery storage project, enhancing energy stability with a capacity of 200 MW. Fluence Energy, in partnership with DTEK Group, has successfully completed Ukraine's largest battery-based energy storage project, with a capacity of 200 MW, in under six months. The project will provide critical grid stability services amid Ukraine's energy challenges. Energy investor DTEK and system integrator Fluence have begun commissioning a 200MW/400MWh battery storage portfolio across Ukraine. The projects, contracted with grid operator Ukrenergo, utilize Fluence's standardized battery technology. Ukraine's largest private energy company, DTEK, has inaugurated a major battery storage facility designed to bolster the country's electricity grid ahead of anticipated Russian attacks this winter. Developed in partnership with American firm Fluence Energy Inc., the system comprises 698 Gridstack battery units. DTEK and Fluence energise the largest energy storage system in Ukraine through advanced grid-forming technology. DTEK launches Eastern Europe's largest battery storage system. Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of anticipated Russian attacks. Ukraine's biggest battery storage project goes online. Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation. Ukraine's DTEK invests in major battery storage to bolster energy security. Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy infrastructure. DTEK and Fluence Energize Ukraine's Largest Energy Storage. DTEK Renewables International (DRI), the EU renewables arm of Ukraine's DTEK Group, has selected Fluence Energy to deliver a 133 MW battery energy storage system. Fluence Energizes Ukraine's Largest Battery Storage. Fluence Energy, in partnership with DTEK Group, has successfully completed Ukraine's largest battery-based energy storage project, with a capacity of 200 MW, in under six months. This project consists of six battery energy storage systems. DTEK and Fluence Launch 200MW/400MWh Battery Storage. First fully remote commissioning due to wartime constraints, with Ukrainian engineers trained in Europe. The project will provide critical grid stability services amid Ukraine's energy challenges. DTEK and Fluence energise the largest energy storage portfolio. The project includes six battery energy storage systems of varying capacities - from 20 to 50 MW.
